Subject: OPPT New Chemical Strategy Meeting

Attachments: Overview of New Chemicals Meetings and Purpose_v2.docx

Importance: High

Here are Agenda Items I want to discuss:

- 1) Th Meeting Discussion Items – Divisions?
- 2) NC Litigation – responses to Request #2 from **Ex. 6 Personal Privacy (PP)**
- 3) Submitter Provided Data/Information –
 - a. Why not using?
 - b. Is it an 'oversight' issue or technical issue?
 - c. What 'bar' are RAD scientists applying for relevance/reliability? Is RAD setting bar too high?
 - d. IMMEDIATELY In ALL cases that RAD deems data insufficient, the RAD rationale must be written, reviewed by **Ex. 6 Personal Privacy (PP)**, approved by RAD management PRIOR to continuing assessment without it
 - e. SHORT TERM: RAD provide guidance, with specific examples, as to what constitutes reliable information., e.g. what data/info constitutes an acceptable particle size distribution description? What data/info constitutes acceptable
- 4) Case Review
 - a. 2 J cases...will they get done in May?
 - b. others
